Can you hear the sound  
of the spaceship rockets landing?

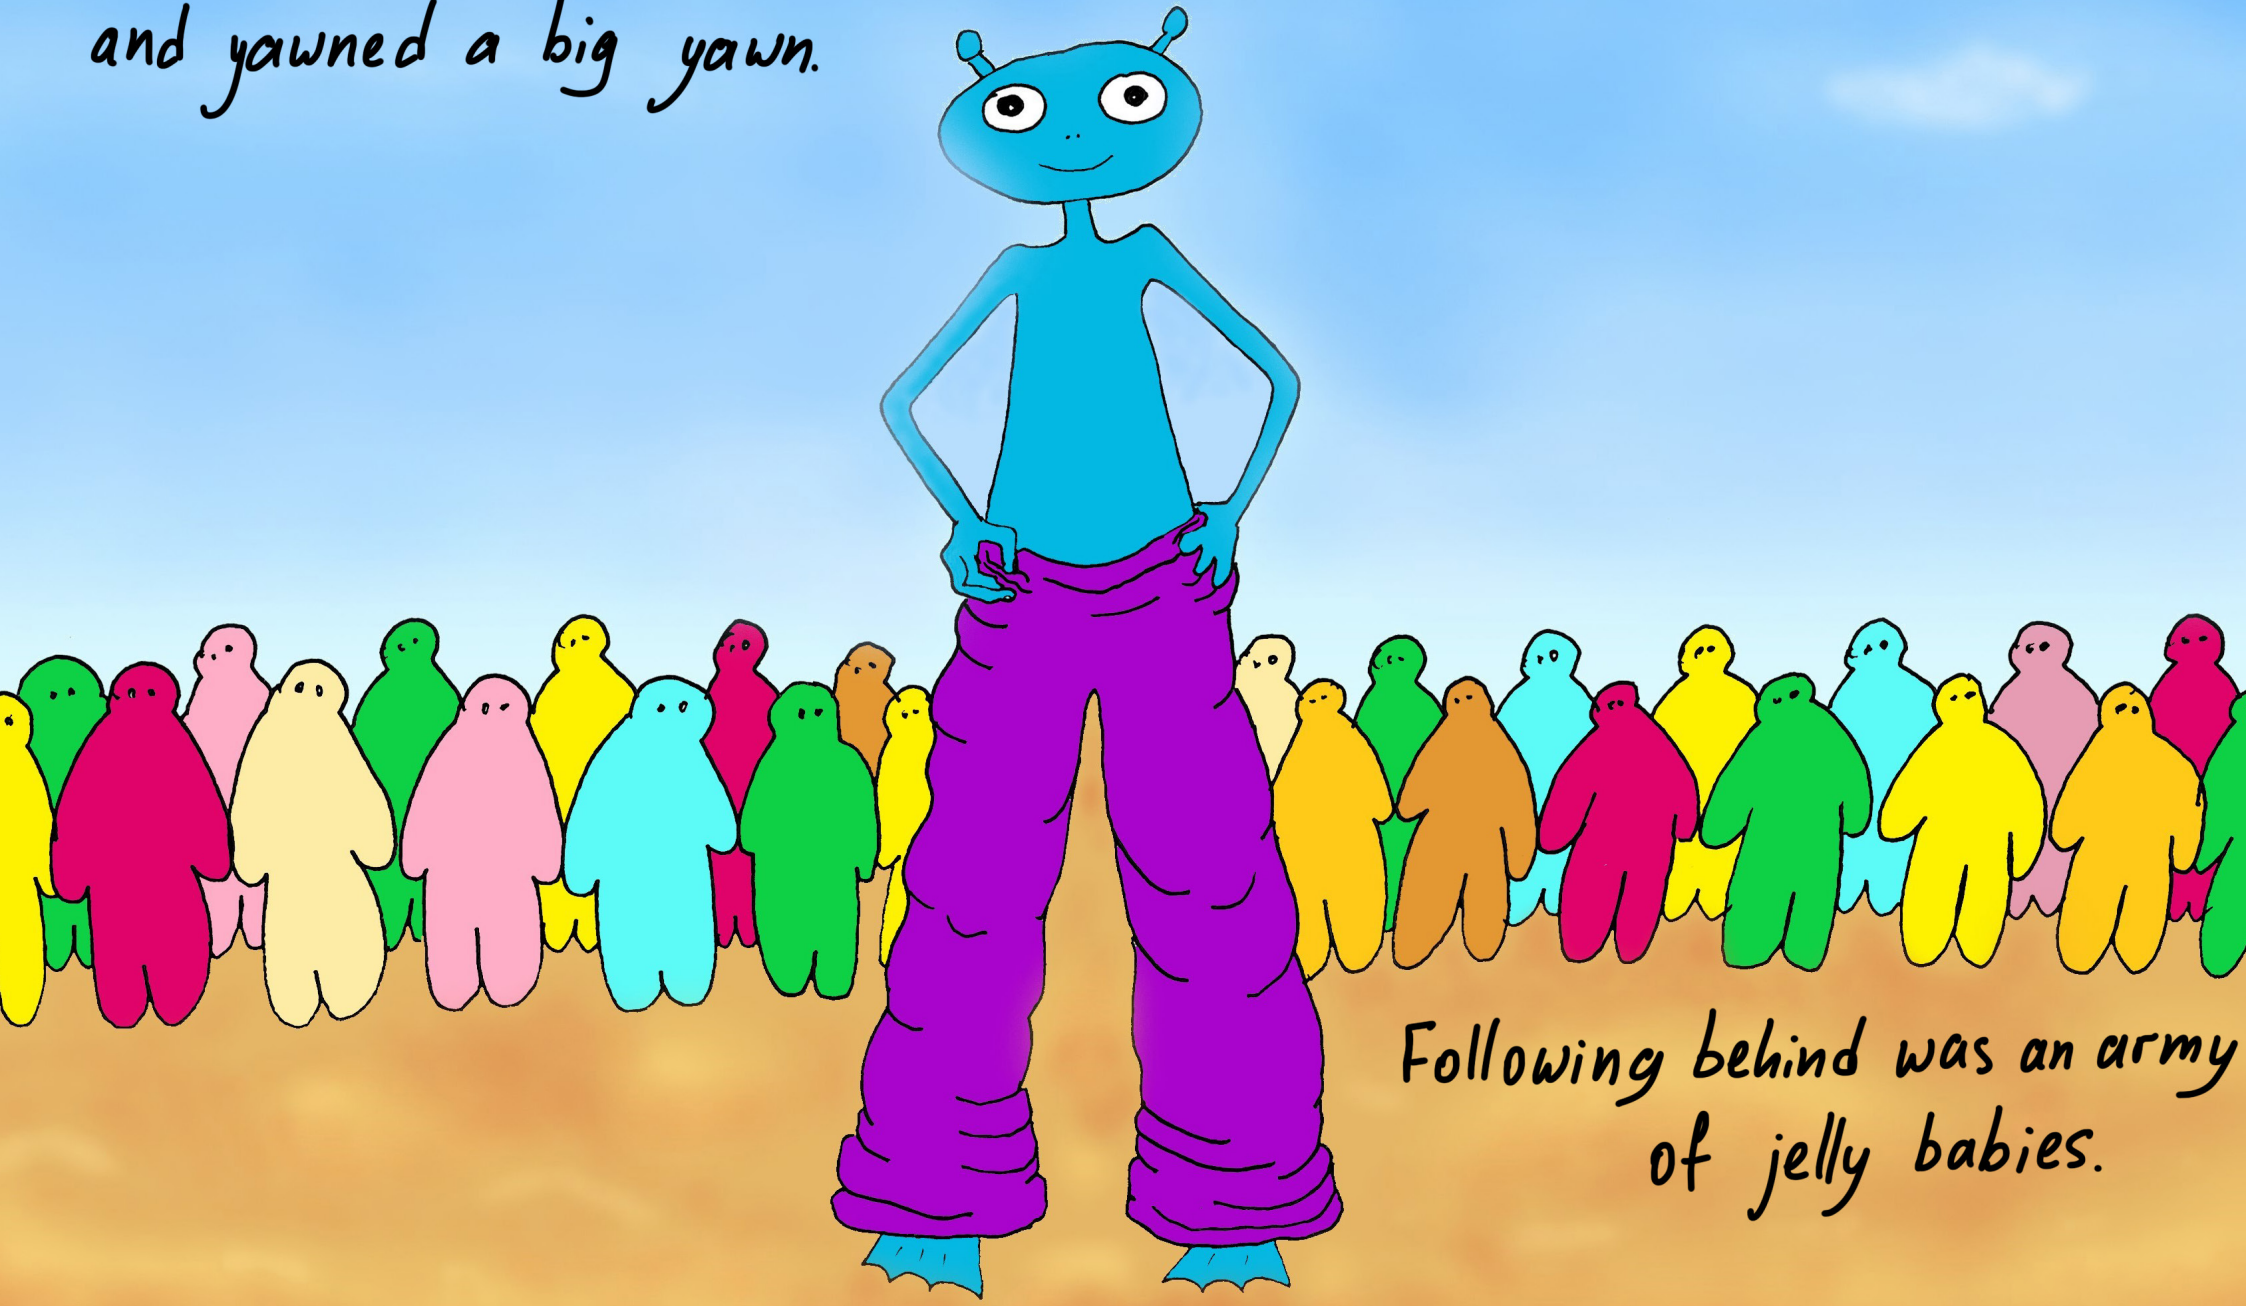

It's shaped like a skyscraper,  
as big as the Eiffel tower.

It landed on Planet Lulu, where it was hot,  
with red colours like the Sahara Desert or Arizona,  
and many sharp pointy cactuses.

A blue alien came out pulling up its trousers (because on planet Lulu humans wear clothes). It waved its arms, doing an exercise regime, and yawned a big yawn.

Following behind was an army of jelly babies.

The aliens had come to visit Suzie, but they were all ringing bells-

**VERY LOUDLY!**

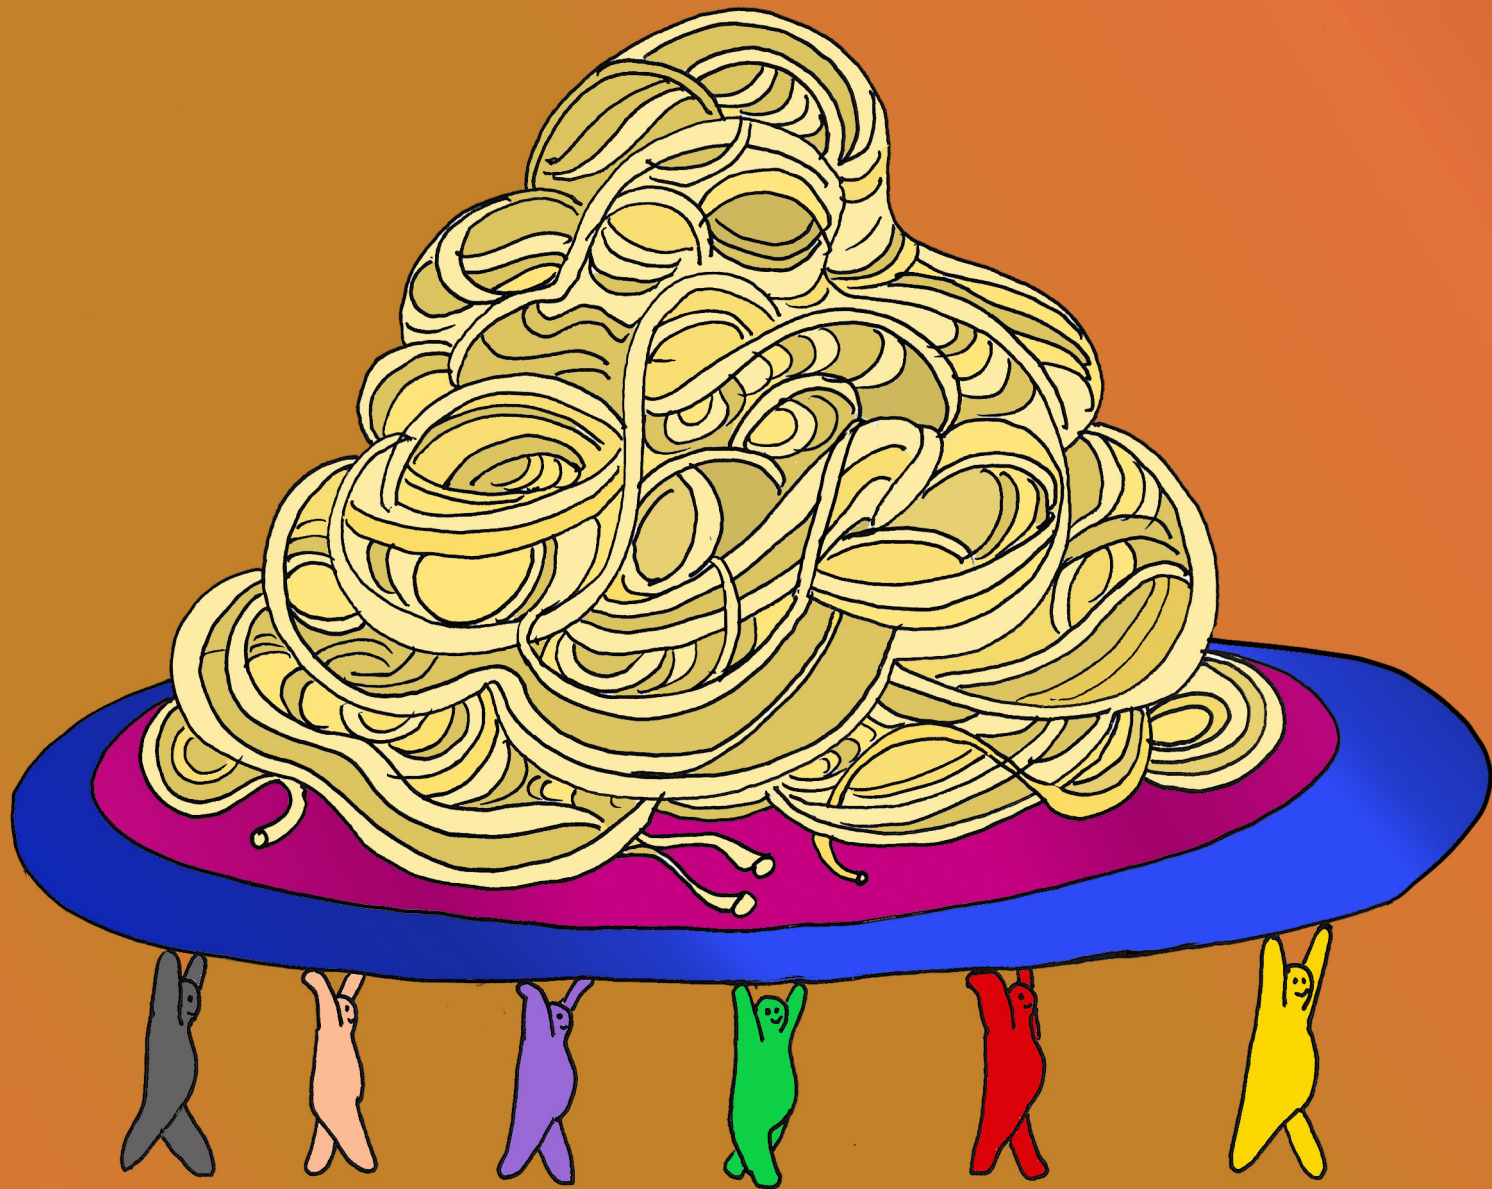

The clanging of the bells upset Suzie

so much

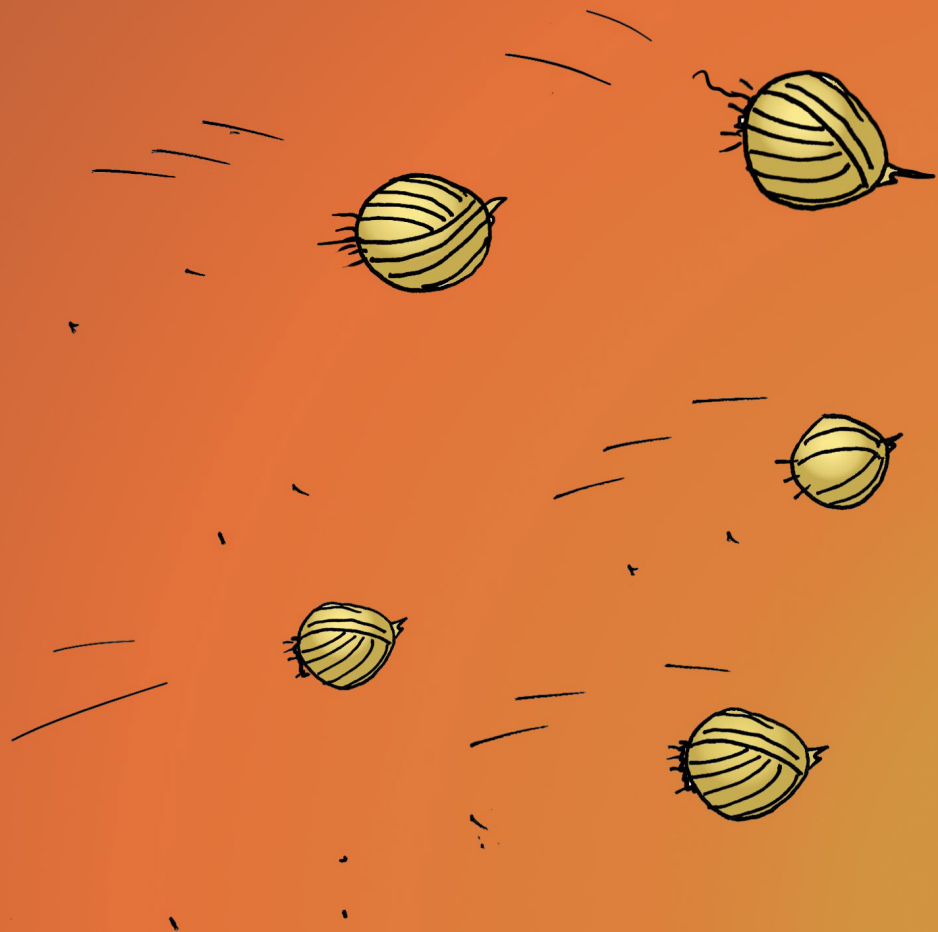

she told them all to

"Go Away!!!"

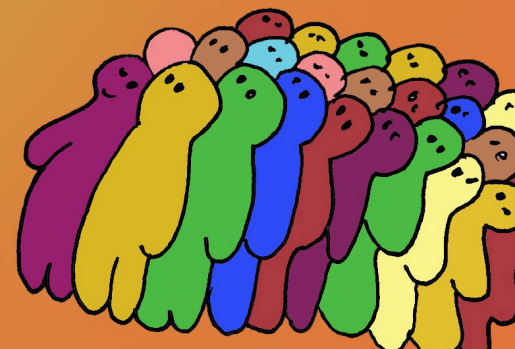

The aliens stopped playing the bells, and brought out spaghetti with pickled onions to share - but Suzie likes Tuna & Sweetcorn. So she **STILL** wanted them to go away.

She tried throwing the pickled onions  
at them, hoping they would leave  
her alone -

but instead, the aliens  
just opened their mouths wide  
and gobbled them up!

Planet Lulu was usually  
a very relaxed, peaceful planet,  
so the jelly baby army  
started singing softly,

"um bum hum ba bum..."

The singing carried on the breeze  
and made Suzie

**HAPPY.**

When you are happy  
you feel it in your heart,  
in your chest,  
in your smiling lips and cheeks.

*Suzie and the jelly baby army clapped hands, jumped with joy,  
and danced with delight.*

Now it's time for your own story!
